MANAGEMENT

The Team

Mibex limited is managed by three different units; The trading unit, legal unit and customer service unit. The different units are headed by a number of staff who work together to achieve a common goal. Experts in their different fields, they work to produce the best results to ensure stability and progress.

INVESTMENT STRUCTURE

Mibex Funds has two investment packages;

Line Investment

This investment utilizes the Mibex Crypto Index Fund shortened as (MCIF) Staking and the soon to come CBOE Bitcoin ETF. The Mibex Crypto Index Fund give investors exposure to all assets listed on the exchange (Poloniex), weighted by market capitalization of the crypto currencies. The crypto currencies include; Bitcoin, Bitcoin cash, Ethereum, Litecoin.

Circle Investment

This is a new era of investing in crypto currencies called circle investment; it utilizes investing tools such as equity crowd funding, initial coin offering, crypto-currency trading and arbitrage trading. It involves the crowd funding of resources by different investors in order to take advantage of the crypto-space and also minimize their risk exposure to the volatile market.
